
26-2-1 Relation to Adjoining Street Systems.

- (a) The arrangement of streets in new subdivisions shall make provision for the continuation of the existing streets in adjoining areas (or their proper protection where adjoining land is not subdivided) insofar as such may be deemed necessary by the Planning Commission for public requirements. The street arrangement must be such as to cause no unnecessary hardship to owners of adjoining property when they plat their own land and seek to provide for convenient access to it.
 - (b) Minor streets shall approach the major or collector streets at an angle of not less than eighty (80) degrees.
